

Our Mission:

To be a victorious woman is the focus of this ministry. Our mission statement is to rise up an army of women who know their Creator and the purpose He created them for, to walk confidently in that purpose with passion and to serve the house where they are planted.

It is a joy and delight to be a Woman! We are nurturing, creative, persevering, and resilient, among other things. Add the God factor and we as women can be down right amazing! As we live this life as a Woman of God ... we do find that we need emotional and spiritual support. I hope you will participate in the different special programs and events. Each one has wonderful opportunities for growth, support, friendships, and healing which will keep us "In Step with the Spirit"! We are always open to new ideas and suggestions, so please call or email any time!

Blessings to you!
